1. The examiner acknowledges the cancellation of claims 17-19 and 21-31 and addition of new claims 35-52 by the amendment filed on 6/2/05. Claims 32-52 are presented for examination.
2. The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification. Furthermore, all claims should be revised carefully to eliminate all grammatical errors and antecedent basis problems.
3. The indicated allowability of claims 32-34 in the last office action is withdrawn in view of new rejection discussed below.
4. 35 U.S.C. 101 reads as follows:
Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.
5. Claims 32-34 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 32-34 recite merely a data structure of an "electronic mail data" that can be transmitted from a broadcasting device to a receiving device through a communications path. The claims are non-statutory as not being tangibly embodied in a manner so as to be executable.
6. Claims 35-52 are allowable over the prior art of record.

The following is an Examiner's Statement of Reasons for Allowance:

The examiner has done a thorough search and found no prior art of record, alone or in combination, that teaches or fairly suggests the limitation such as "said operation control data comprises instruction for format of image of a button of the receiving device and/or instruction for operation when the button is pushed" in combination with other

Art Unit: 2111

claimed elements as claimed in claim 35. Claims 36-52 have similar limitations in combination with other claimed elements which prior art of record, alone or in combination does not teach or fairly suggest. If applicants are aware of any better prior art than those of record, they must bring the prior art to the attention of the examiner.

Any comments considered necessary by applicant must be submitted in response to this office action to avoid processing delays. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

7. Applicant's arguments filed on 6/2/05 have been fully considered but are moot in view of the new ground(s) of rejection.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gopal C. Ray whose telephone number is (571) 272-3631. The examiner can normally be reached on Monday - Friday from 8:00 AM - 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Rinehart, can be reached on (571) 272-3632. The fax phone number for this Group is (703) 872-9306.

All Internet e-mail communications will be made of record in the application file. PTO employees do not engage in Internet communications where there exists a possibility that sensitive information could be identified or exchanged unless the record
